Please join us for a workshop to learn more about the draft Districts 1 & 2 Bikeways Strategy. The project team has been working with various stakeholders to analyze and rank the regional bikeway corridors that were presented at a workshop in May. Draft corridors and ranking will be presented, and a roundtable discussion will follow.

Your participation and input will help as further refinements are made to the Strategy. Following completion of the Bikeways Strategy, OCTA will conduct further feasibility studies for the top ranking corridors.
