

You are invited!

The OC Connect Study is now completing the Environmental Site Assessment phase. Join the team to catch up on the progress completed and to review the next steps. Be sure to bring a friend and be ready to provide feedback.

This project's goal is to create a 4-mile biking and walking trail connection between Garden Grove and Santa Ana as well as to the Santa Ana River Trail and the countywide 66-mile OC Loop bikeway. This project would complement transportation options along the corridor, increase access to recreation opportunities, and provide a well-connected active transportation route.

Your opinion matters!

Join an upcoming meeting to:

- Receive an update on the trail design
- Share how the trail will benefit you
