Committee Member Comments

A committee member asked how the Navy base is moving along on their project with the bike facility on the northern side of the bridge. Peter Sotherland said their project was further south so he is not sure what is going on in their project but he will look into it. The committee member expressed the importance of this area because of the gap it causes in the loop and Peter said yes, this is a high priority part of the project.

A committee member said it is nice to see the network of routes forming across the county and asked about the availability of funding for these types of projects. Peter said there has been an increase over the past several cycles in Active Transportation Program (ATP) funding and there are a lot of grant programs popping up.
