

DETECTABLE TILE REPLACEMENT PROJECT

Santa Ana Station

About the Project

OCTA, in coordination with Metrolink, will upgrade safety features at six stations in Orange County. Improvements will include removal and replacement of yellow detectable warning tiles and other directional tiles, as well as restriping of station platforms. Six stations will receive these upgrades: Buena Park, Fullerton, Orange, Santa Ana, Laguna Niguel/Mission Viejo, and San Clemente.

Construction Beginning Soon!

The contractor is expected to begin work in the coming weeks at the Santa Ana Station. Activities could begin as early as Monday, March 15. Work is anticipated to continue for up to five weeks.

Construction is set for 7 a.m. to 3:30 p.m. Monday through Friday.

What to Expect

- Construction areas will be cordoned off.
- Crews will be using a jackhammer for this work.
- Please be advised that this work may be loud.
- Rail service will not be affected by the project.

Note: Dates and times may change due to unforeseen operational factors or inclement weather.
