

Update to the Public Transit-Human Services Transportation Coordination Plan for Orange County

Project Overview

- Ensure compliance with Federal Transit Administration guidelines for development of a coordination plan
- Validate and/or identify unmet transportation needs and mobility gaps
- Facilitate dialogue between public transit and human services agencies
- Establish a prioritized list of responsive projects and strategies

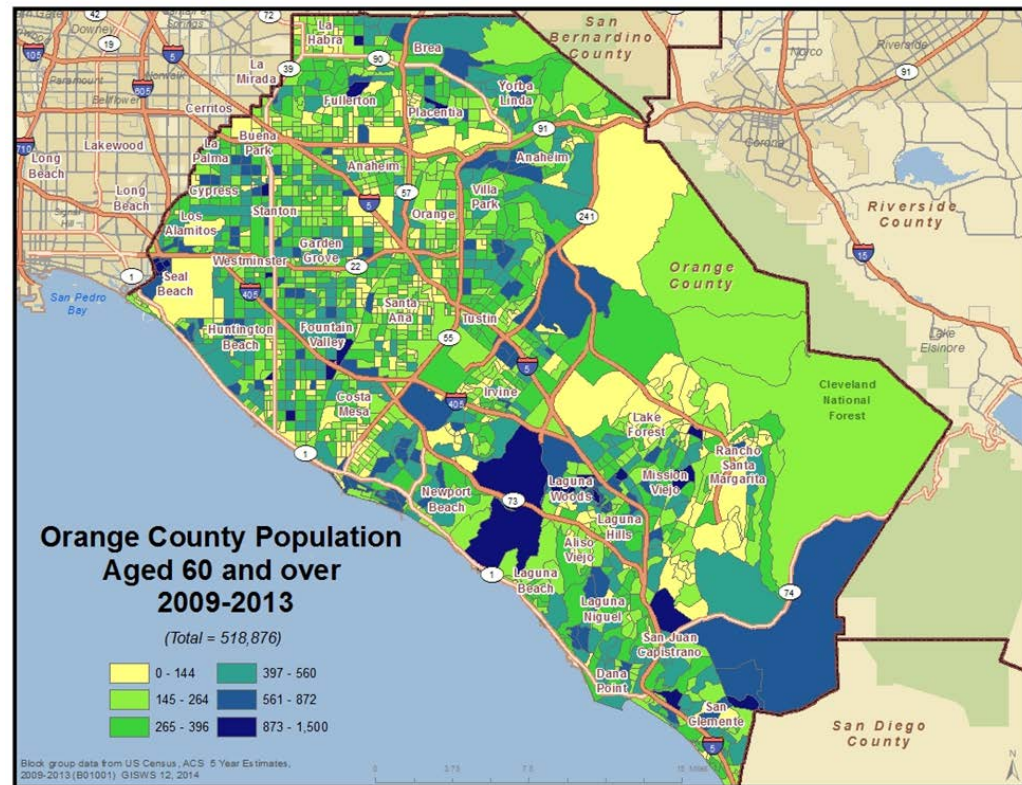

Key Findings - Seniors

Population Age 60+

11.7% in 2015

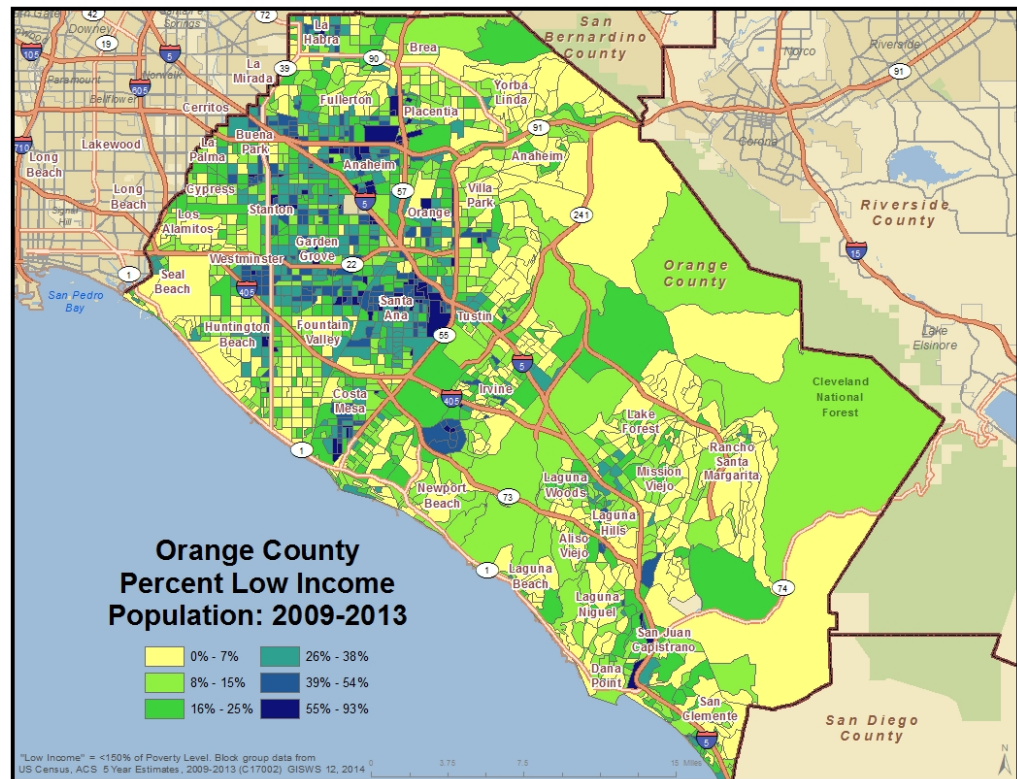

14.9% by 2020

19.6% by 2030

Key Findings - Persons of Low Income

21% of population currently at or below 150% of federal poverty level

Key Findings – Transit Use

Overview of OC Public Transportation
Number of Trips by Mode
Fiscal Years

■ 2006-2007 ■ 2012-2013 ■ 2013-2014

ADA – Americans with Disabilities Act

Summary of Needs and Gaps

- Clear need for specialized transportation for seniors, persons with disabilities, persons of low income and veterans
- Healthcare and medically-related trips still most common need
- Lack of information resources to connect with existing specialized services
- Need infrastructure improvements to increase mobility for special needs populations
- Demand for south county service among disadvantaged populations

Coordination Plan Goals

1. Improve transportation information resources
2. Enhance public transportation network
3. Expand specialized transportation mobility options
4. Expand affordable transportation
5. Improve mobility infrastructure

Top Priority Strategies

- Develop a Mobility Management program to provide customized information
- **Promote Complete Streets community planning principles of “senior friendly” and “pedestrian friendly” environments**

Special Needs Transportation Community Planning

- Promote safe and walkable streetscapes
 - Attention to “path-of-access” issues
 - Sidewalk extensions, ADA-compliant curb cuts, lighting, benches, etc.
- Promote non-motorized transportation
 - Encourage municipalities to support safe ped/bike travel
 - Provide education and safety training to special needs populations
