	Safe Transit Stops	W	25.0
Environmental Cleanup (in millions)			\$237.2
	Clean Up Highway and Street Runoff that Pollutes Beaches	X	\$237.2
Taxpayer Safeguards and Audits (in millions)			\$296.6
	Collect Sales Taxes (State charges required by law)		\$178.0
	Oversight and Annual Audits		118.6
Total (2005 dollars in millions)			\$11,861.9

Freeway Projects

Funded By Measure M2

Projects Overview

- SANTA ANA FREEWAY (I-5)**
Four Improvement Projects
- GARDEN GROVE FREEWAY (SR-22)**
One Improvement Project
- COSTA MESA FREEWAY (SR-55)**
One Improvement Project
- ORANGE FREEWAY (SR-57)**
One Improvement Project
- RIVERSIDE FREEWAY (SR-91)**
Three Improvement Projects
- SAN DIEGO FREEWAY (I-405)**
Two Improvement Projects
- SAN GABRIEL RIVER FREEWAY (I-605)**
One Improvement Project
- FREEWAY SERVICE PATROL**

Transit Projects

Funded By Measure M2

Projects Overview

- METROLINK EXPANSION**
Multiple programs for rail improvement
- TRANSIT EXTENSIONS**
Transit routes connecting to Metrolink
- REGIONAL GATEWAYS**
Convert station(s) for high speed rail
- SPECIAL MOBILITY OPTIONS**
For seniors and persons with disabilities
- COMMUNITY SHUTTLES**
Complimenting county bus service
- SAFE TRANSIT STOPS**
Amenities for busiest transit stops

Streets Projects

Funded By Measure M2

Projects Overview

- STREET PROGRAMS**
Street maintenance and improvements
- TRAFFIC LIGHT IMPROVEMENTS**
Over 2,000 signals coordinated
- LANE ADDITIONS**
Nearly 1,000 miles of new lanes

Environmental

Cleanup and Preservation

Projects Overview

OCTA's Environmental Mitigation Program delivers sweeping results to protect our natural resources while adhering to the promise to voters to implement 13 freeway improvement projects.

The first property acquisition aimed at preserving our environmental legacy is the majestic 84 acres called Saddle Creek South.

OCTA will soon announce other habitat purchases throughout Orange County joining the Environmental Mitigation Program.

Water Quality Program

Enhancing Water Quality for Orange County's Future

Freeway Mitigation Program

Costa Mesa Freeway (SR-55) Improvements

Overview

Sign up for updates

Freeing Up the 55

This project will increase freeway capacity, reduce congestion and smooth traffic flow by adding new lanes and delivering operational improvements between interchanges.

Snapshot of Current Congestion

- SR-55 carries 295,000 vehicles per day
- Estimated to 332,000, an increase of 13 percent in the future

Upgrades

The new lanes and improvements will generally be delivered within the existing right of way. The project's major elements and segments consist of:

- Adding new lanes to SR-55 between SR-22 on the north and I-405 on the south
- Delivering improvements on SR-55 between SR-91 on the north and SR-22 on the south

In addition to these projects, federal and state funds will be used to deliver a new street overcrossing and carpool ramps at Allon Avenue.

All of these improvements will be developed in cooperation with local jurisdictions and communities.
