Have you heard of the ARTIC in Anaheim?

The Anaheim Regional Transportation Intermodal Center, better known as ARTIC, serves as a hub for rail, bus, taxi and other services for daily commuters, visitors and leisure travelers. This large multi-modal center has the feel of a modern airport. Soaring space is punctuated by slowly changing colored lights on the pillowed ceiling. With connections to both Metrolink and Amtrak rail service you can travel as far north as San Luis Obispo and as far south as Downtown San Diego. There are bus stops for OC Bus routes 50, 53 and 153, a Greyhound stop, and several other bus services. Anaheim Resort Transportation (ART) has 20 bus routes providing connections to the Disneyland Resort, Downtown Disney, Knott's Berry Farm, Honda Center, Angel Stadium and area hotels. Inside the ARTIC you will find eateries as well as Amtrak

and Greyhound ticket booths. Nearby there are restaurants and major entertainment areas easily accessible such as Anaheim Stadium, Disneyland and the Anaheim Garden Walk. ARTIC is one of OCTA's predetermined locations for your OC ACCESS rides, so when you book your ride, tell the reservationist you are going to the ARTIC in Anaheim; the pick-up and drop-off location will be at dock 9.

The ARTIC is a great starting or transfer point when traveling to or through Orange County with plenty of entertainment and activities within walking distance.

You Must Buckle Up – It’s the Law!

As a reminder, all OC ACCESS passengers are required to wear their seat belts for their own safety and because it’s the law.

The dangers of not using the seat belts include:

- The occurrence of serious bodily injuries in the event of an accident or abrupt stop.
- Improperly wearing a seat belt puts you at risk for major injuries created by the improperly placed seat belt.
- Per the National Highway Traffic Safety Administration (NHTSA), of the 37,461 people killed in motor vehicle crashes in 2016, 48% were not wearing a seat belt.

If you are using a wheelchair or scooter, here are some helpful guidelines to keep in mind when buckling up:

- The lap and shoulder belt should be secured across your body and over your lap to minimize the effects created by the force experienced in a crash.
- Place the shoulder belt across the middle of your chest and away from your neck.
- The lap belt rests across your waist area, not your stomach.
- NEVER put the shoulder belt behind your back or under an arm.

The NHTSA statistics show that in 2016, seat belt use saved 14,688 lives. The national use rate is 90.1% - but nearly 27.5 million people still do not buckle up. Don't be a statistic – Buckle Up!
