

# Transit Investment in Bus and Rail

## Transit System

### Objective:

Enhance existing bus and rail service and introduce new types of transit services to address a variety of travel markets within the study area.

### Proposed Transportation Features:

- ❖ Increase local and express bus services by improving frequency and geographic coverage
- ❖ Provide a substantial investment in community-based shuttles
- ❖ Introduce beach buses and special event shuttles
- ❖ Increase the number of weekend trains between San Diego and Orange Counties
- ❖ Add a new rail station in Lake Forest
- ❖ Increase the amount and quality of transit services connecting to and from rail stations (e.g., Go Local Metrolink Connectors, Fixed Guideway)
- ❖ Increase station parking capacity and station access
