Updated, 3/03/14

The Orange County Transportation Authority (OCTA) will construct a vehicle undercrossing at the intersection of Placentia Avenue and the Burlington Northern Santa Fe Railway. As part of the project, the roadway will be lowered to separate car traffic from train traffic. The undercrossing will be located between Crowther Avenue and State Route 57.

During construction, Placentia Avenue will be open to travel in both directions, with cars traveling on a temporary roadway constructed just east of the current route while train traffic is realigned.

When completed, the project will move cars safely and smoothly under the railroad tracks, enhancing safety and boosting mobility.

CONSTRUCTION SCHEDULE

Construction of the Placentia Avenue undercrossing began in early 2012 and is scheduled for completion in mid 2014. Work is scheduled so that adjacent crossings are not closed to drivers at the same time, and OCTA is working to reduce the effects of construction on the community. Some night work is anticipated throughout the project.

SAFETY: OCTA'S TOP PRIORITY

OCTA's highest priority is safety for its project workers and the public. During construction, please:

- Slow down and watch for workers and equipment
- Allow extra time to get to work, school and appointments
- Be extra careful when driving at night and in rainy weather
- Avoid use of mobile phones or other distractions
- Watch for closures and follow detours
- Be patient. Remember that this is a short-term inconvenience for a long-term traffic solution.

PROJECT / MAJOR MILESTONE

- Construct temporary bypass detour road for Placentia
- Build railroad shoofly (detour) and shift rail traffic
- Reconstruct Home Depot Way
- Build new railroad bridge and shift rail traffic back
- Construct new Placentia Avenue and remove bypass road

PROJECT BENEFITS

- Greater driver/pedestrian safety
- Shorter emergency response times
- Elimination of delays
- Easier business access
- Enhanced economic vitality
- Improved air/noise conditions
- Better quality of life

The OC Bridges Program is partially funded by Measure M Orange County's half-cent sales tax for transportation improvements.
